Weiping Yan

yan00944@umn.edu | vipinapple986@gmail.com | appleweiping.github.io | github.com/appleweiping | LinkedIn | Google Scholar

Education

University of Minnesota, Twin Cities — **Sep 2026 – Present**
Electrical Engineering and Computer Science, College of Science and Engineering — *Minneapolis, MN*

Delft University of Technology and Eindhoven University of Technology — **Sep 2024 – Aug 2026**
Concurrent study in Computer Science & Engineering, Electrical Engineering, Applied Physics — *Delft & Eindhoven, NL*

- **Honors:** TU/e Honors Academy Honors Bachelor Program; TU Delft Honours Programme Bachelor (HPB) (2025–2026)

Hangzhou Normal University Affiliated High School · Shanghai Foreign Language School — **Sep 2021 – Aug 2024**
High school, science and engineering — *Hangzhou & Shanghai*

Experience

NLP Research Intern — **Jul 2026 – Present**
Minnesota NLP Group, University of Minnesota — *Minneapolis, MN*

- Built a consent-first **Chrome extension** that records privacy-reduced interaction traces, so people and **computer-use agents** can be compared on the same tasks.
- Wrote the **Python CLI** that validates traces, extracts 23 behavioral features, and runs leave-one-task-out evaluation; **5 PRs** merged into the lab repository.

Research Assistant — **Mar 2026 – Present**
The Chinese University of Hong Kong — *Hong Kong*

- Research on **large language models for recommendation (LLM4Rec)** and natural language processing.

Co-Founder — **May 2026 – Present**
Veylora Labs — *Remote*

- Exploring executive-intelligence systems that support organizational decision-making.

Teaching Assistant, Calculus and Logic & Set Theory — **Sep 2025 – Nov 2025**
Eindhoven University of Technology — *Eindhoven, NL*

- Led **tutorial sessions**, guided problem solving, and gave written feedback on students' mathematical reasoning.

Research Assistant, IC Design — **Jul 2025 – Sep 2025**
Zhangjiang Laboratory — *Shanghai, China*

- Learned the analog IC flow on industry **EDA tools**: schematic, pre-layout simulation, **DRC/LVS**, and MPW tape-out preparation.

Student Researcher, PM2.5 and Respiratory Disease — **Sep 2023 – Feb 2024**
Independent project, advised by Prof. Soummya Kar (CMU) and Assoc. Prof. Qiang Gao (SEU) — *Beijing, China*

- Wrote a **Python** analysis and visualization pipeline on synthetic data; published in *Theoretical and Natural Science*.

Publications

OAM-GA: Reliability-Guided Motion Completion for Occlusion-RobustGaussian Avatars — **2026**
Xiang Wang, Xu Yan, Letian Pei, **Weiping Yan**. *Submitted to DAI 2026, under review*. openreview.net/forum?id=UV2UJ4VHf7

Effect of PM2.5 air pollution on the incidence of respiratory diseases: A Python-based data analysis — **Nov 2023**
Weiping Yan. *Theoretical and Natural Science 8(1), 70–75*. 10.54254/2753-8818/8/20240361

Open-Source Contributions

- **20 pull requests merged into 12 projects maintained by others** (Aug–Oct 2026). *Chip design:* OpenRAM, CharLib, HighTide, COmPOSER, ALIGN. *Power systems:* Power Grid Model, power-grid-model-io. *Search and recommendation:* PISA, Pyserini, LensKit. *Speech and NLP:* M*, clulab processors.

Honors and Awards

- **Kaggle Bronze Medal**, Santa 2025 Christmas Tree Packing Challenge: 186th of 3,357 teams (Jan 2026)
- **National First Prize**, Science and Innovation Cup Mathematical Modeling Competition, knowledge track (Dec 2025)
- **First Prize**, National College Student Mathematics Ability Challenge (Dec 2025)
- **First Prize**, CTSS College Student Innovation and Entrepreneurship Competition (Jul 2025)

Technical Skills

Languages: Python, C, C++, Java, Rust, TypeScript/JavaScript, MATLAB, Verilog
Tools: Git, NumPy, pandas, Matplotlib, PyTorch, ngspice, LTspice, Origin, Linux
Interests: Artificial intelligence, natural language processing, microelectronics, electronic design automation
Spoken: Mandarin Chinese (native), English (C1)
